

She Works Hard Saving Money Challenge

Can you make it 15 days without spending money on things you don't need?

Each day, estimate how much money you saved in each category and write the amount below the icon. Then use the last column to record the total amount you saved that day. Don't worry—you can still spend money on food, utilities, housing, transportation, debt and prior commitments. At the end of 15 days, add up the last column to see how much you saved overall!

Day	Coffee	Dining Out	Clothes	Beauty	Entertainment	Kid Stuff	Other	Total Saved
