FOR IMMEDIATE RELEASE

#1 NATIONAL BEST-SELLING AUTHOR CHRIS HOGAN RELEASES BOOK BASED ON LARGEST STUDY OF MILLIONAIRES EVER CONDUCTED

Everyday Millionaires Is Now Available for Order

“We’ve all painted pictures in our minds of what millionaires look like: high-profile executives with six-figure salaries, luxury cars, million-dollar homes and designer clothes,” said Hogan. “But through our research, we’ve learned that it’s almost always just the opposite. It’s everyday people you would never suspect. More importantly, what we found is that with a plan, some discipline and intentionality, anyone can reach millionaire status.”

Everyday Millionaires walks readers through an in-depth look at the mindset and daily habits that led these high-net-worth individuals to success. Featuring real stories and advice from actual millionaires, Hogan provides practical tools and tips to help readers realize the American Dream is still alive and well.

The research uncovered the following information about Everyday Millionaires:

- Eight out of 10 millionaires reached millionaire status through their company’s 401(k). On average, they invested for 28 years before hitting the million-dollar mark, and most of them reached that milestone at age 49.
- 79% of millionaires did not receive any inheritance at all from their parents or other family members.
- The top five careers for millionaires were engineer, accountant, teacher, manager and attorney.
- One-third never made six figures in any single working year of their career.
- Almost two-thirds (62%) of millionaires graduated from public state schools, while only 8% went to a prestigious private school.
